Horizon

Intriguing indents create inviting comfort

**Horizon Lounge Seating**  
**Designers Speak Collection**  
 Designed by Paul Smead of HOK  
 Product Design

A distinguishing characteristic of Horizon lounge seating can be found in its intriguing indents. Lounge chair and 2- and 3-seat sofas all exhibit this feature, apparent where back meets arms and arms meet the cushioned seat. Viewed from the side, Horizon lounge seating repeats the angular nature of the indent, where seat cushion and back panel extend slightly beyond the arms. The theme is carried even to the angular stainless steel legs.

Indents where back meets arms and arms meet cushion give Horizon its distinctive appearance

The back, with a bold horizontal seam and offset from back cushion and arms, conveys substance

The solid look of the fully upholstered arm is offset by extending the seat and back slightly beyond it

**Specifications**

Fully upholstered lounge chair and 2- or 3-seat sofa available with fixed cushions and metal legs with nylon glides. The legs are constructed of stainless steel and have nylon glides. The seat is constructed of multi-density polyurethane foam. Also available with down-wrapped seat cushions.

**Options**

- Upholstery: Com/Col, Fabric and Elmo Leather program
- Cushions: Standard foam or optional down-wrapped seat cushion
- Metal: Polished or Satin Stainless Steel. Statuary Bronze is also available
