Modo Collection Livy

Two arm heights expand use from guest to lounge

Cumberland Modo Collection
Livy Chair
Designed by Gary Lee Partners

The complete wood surround of this side chair was designed with careful attention to the proportioning of the deeper seat cushion, fully upholstered back and slightly splayed overall form. An option for a lower arm height transitions this piece from a guest chair to a lounge piece.

Choice of arm heights provides versatility

Wood surround creates a crisp silhouette

Specifications

The high arm chair has upholstered interior arm panels, the low arm version has a wood interior. The chair frame is constructed of hard Maple solids and Maple veneers quartered and slip matched. It is also available in Ash.

Options

Wood: Maple is standard; Ash is available at an additional charge
Upholstery: Com/Col, Fabric and Elmo Leather program
Finishes: Standard and custom finishes; Cerused finishes are available on Ash at an additional charge
