Balanced transparency and tailoring

Cuff Collection Multi-Height Meeting Tables

beautiful objects that work

Cuff Meeting Tables
Designed by Travis Clifton

The transparency of precision-cut polished stainless steel in the Morse Code pattern provides visual balance to the mass of the continuous-base shown here with a walnut top and Clover chairs.

Options for tops, cuff patterns, and bases mean each table can express exactly the right personality while base heights match function. Here a glass top, painted Polka pattern cuff, and a wood base share the spirit with Li bar-height stools.

An all-metal base with the Basketweave pattern cuff and stone top make for a clean, contemporary aesthetic, complemented by the scale of Clover chairs.

Cuff Collection Meeting Tables

Designed by Travis Clifton

The Cuff Collection brings diverse materials together with precision-cut patterns inspired by nature, craft, fashion, and architecture. The transparency of the cut-out metal is juxtaposed with the mass of the base and top, which can be specified in a variety of metal and wood finishes. Combining the elements in innumerable ways means tables as striking or light-hearted as environments call for.
