Alia Metal

Layered elements for a striking profile

Alia Metal Bench
Designers Speak Collection
Designed by Jordan Goldstein, AIA
and Shawn Littrel

The Alia Metal bench owes its striking appearance to three exquisite elements—steel base, wood frame, and fine upholstery—and how they balance one another visually. An invitingly plush upholstered cushion further enhances the bench's welcoming form.

Upholstery, wood, and steel join for a distinctive look

Specifications

The stainless steel bench is available in 4 lengths with an upholstered seat. The base is constructed of maple veneer supported by a welded and smoothed stainless steel base, available in Polished, Satin or Statuary Bronze. The seat is 4" thick multi-density polyurethane foam wrapped in Dacron®. Catalyzed lacquer finish in all Cumberland Maple finishes. Also available with Option A Exotic Woods.

Options:

Wood Surround: Maple is standard; Option A Exotic wood is also available.
Finishes: Standard and custom finishes
Upholstery: Com/Col, Fabric and Elmo Leather program
Metal: Polished or Satin Stainless Steel. Statuary Bronze is also available
