Mulholland

Diverse shapes, elegant materials, simple form

**Designers Speak Collection**  
**Mulholland Guest Chair**  
**Designed by Brian K. Graham**

Test drive the Mulholland guest chair and experience exhilaration akin to a fast trip along LA's winding Mulholland Drive. As that drive challenges, so does the Mulholland chair. A study in contrasts among varied elements, the guest chair embodies the modern architectural idea of simple forms supported by an expressed structural frame. Each of the chair's elements is clearly articulated, and each is realized in elegant materials.

The open back option dramatically lightens the scale of the chair and highlights its sculptural form

Diverse shapes and elegant materials add interest even as they complement one another

The chair with upholstered back provides a canvas for showcasing elegant fabrics or leathers

**Specifications**

Guest chair featuring an upholstered seat and wood back. Also available with an upholstered back between the seat and wood back. The frame is stainless steel available in Polished, Satin or Statuary Bronze. The seat is 2"-thick multi-density polyurethane foam wrapped over webbing that is stretched over a hardwood plywood frame. Catalyzed lacquer finish in all Cumberland finishes. Also available as a bar stool.
