Options – Specify:

Upholstery: COM/COL, Fabric, and Elmo Leather program

Exceptions: Due to the fluid organic curves of this product, fabrics with stripes or large patterns are not recommended, as perfect alignment cannot be achieved. Mohair, velvet, high pile fabrics, and very thick leathers are also not recommended. If in doubt, please have a memo sent to our COM/COL Dept for testing. All leathers naturally stretch with use and seat tautness will vary depending upon the amount of natural stretch in the leather. Because of this natural stretch, the seat will appear loose with comfort wrinkles over time. Our products have been engineered to minimize this effect, but with leathers this is unavoidable and not the fault of manufacturing.
